

STRATEGY	EXPAND PERMANENT SAFE DROP OFF LOCATIONS
Goal	Reduce prescription drug misuse among persons aged 12 to 25
Evidence based?	No
IOM Category	Universal Indirect
CSAP Strategy type	Environmental

KEY ACTIVITIES:

Description of key activities that should be completed to fully implement the strategy

1. Take an inventory of any existing permanent safe drop-off locations in your region.
2. Identify additional locations that could become permanent drop-off locations, including pharmacies, hospitals and law enforcement agencies.
3. Contact potential sites to initiate a conversation about the feasibility of becoming a drop-off site.
4. Provide support as needed to sites that are interested and willing to pursue becoming a permanent drop-off site. This could include conducting research on requirements, convening meetings, providing letters of support, etc.
5. Share information on any new permanent drop-off sites widely within the region and also with VDH. Email the location, hours and contact information for any new sites to Justin.Barton-Caplin@vermont.gov.

Additional indicators to be reported to ADAP:

- a. Were any new permanent safe drop-off locations established in your region during the past quarter? Please include any new drop-off locations whether they were the result of efforts through RPP or not.
- b. [if yes to above] How many?
- c. [if yes to a.] How many of those were established as a result of efforts through RPP? (number should be equal to or less than response to b)
- d. [if yes to a.] Please describe the location(s) of any new permanent safe drop-off locations in your region.
