

# NOT JUST A MATTER OF FAITH

“Working together for the common good is a value we all share.

Join us in this mission.”

**Paul Goldenberg and  
Rev. Dr. Miriam J. Burnett**

PANDEMIC FLU  
**TAKE THE LEAD**  
WORKING TOGETHER TO PREPARE NOW

# PREPARE FOR PANDEMIC FLU

The threat of a flu pandemic is real. It is not a question of **IF** it will occur, but **WHEN** it will occur. Preparing now will make it easier for you and your family during a pandemic. Here are a few quick tips:

**Improve your health habits.** Sneeze and cough into a tissue or your sleeve and wash your hands with soap and water frequently.

**Stock up on food, medicines, and supplies.** You should have enough for two weeks.

**Have a plan.** Know what you plan to do if schools are dismissed, if you can't go to work, or if a member of your family becomes sick and needs care.

Your health and safety is our number-one priority, and we encourage you to prepare now before a pandemic occurs.

For more information about pandemic flu preparation, visit **[www.pandemicflu.gov/takethelead](http://www.pandemicflu.gov/takethelead)**.
